Silenced, yet Celebrated

April 10 — May 8, 2021

Milo Matthieu's solo exhibition, *Silenced, yet Celebrated*, opens at the **Kravets Wehby Gallery** Saturday, April 10, 2021.

"We are celebrated throughout history—and glorified for our contributions. Yet adversity claims many souls through the disguise of awarded honors. In this body of work, I highlight the celebration of us. The work shares the strength and the resilience we continue to form as a community. Abstracted figures united by bold colors and stories filled with beauty and struggle."
